

Thank you for downloading this Free Bokeh background loop

- Change the Z-rotation for Cam Control to control the particle moving direction.
- Change the Master Hue for "Color correction" layer to adjust colors.
- Change Blending mode for "Color correction" layer to achieve even more interesting effects and combination.

Remember:

- You're free to use it commercially.
- You're free to use it as a project background and sell it incorporated in your project (e.g. as a part of your VideoHive.net project).
- No attribution is required
- You're not allowed to resell this file as is.
- You're not allowed to claim that it's your own creation.
